

FULL-STACK WEB DEVELOPMENT – COURSE GUIDE

"12 Weeks of Intense, Hands-On Training to
Transform Your Career."

WELCOME TO THE MEAN STACK FULL-STACK WEB DEVELOPMENT PROGRAM AT NEXMIND SOFTWARE SOLUTIONS.

We are pleased to have you as part of our learning community. This program has been carefully crafted to help you become a job-ready full-stack web developer by building real-world applications using modern technologies.

Whether you're a student, graduate, or someone looking to transition into IT, this program will provide the tools, mentorship, and practical experience you need to succeed.

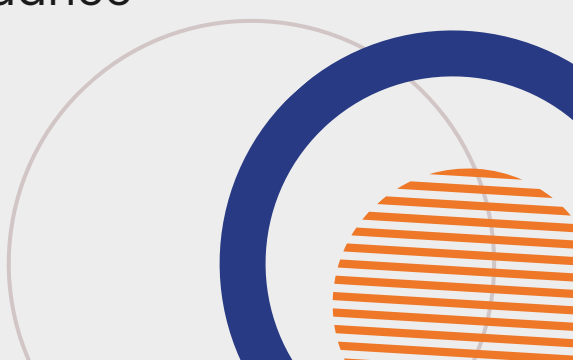

WHAT IS THE MEAN STACK?

MEAN is a collection of powerful technologies used to build full-stack JavaScript applications. It includes:

- **MongoDB** – A flexible NoSQL database used for storing application data.
- **Angular** – A front-end framework used to create responsive, single-page applications.
- **Node.js** – A JavaScript runtime environment for building efficient server-side applications.

By the end of the course, you will be able to develop and deploy complete applications – all using JavaScript.

MAIN FOCUS AREAS

- Focus on MERN (MongoDB, Express.js, React, Node.js)
 - Focus on MEAN (MongoDB, Express.js, Angular, Node.js)
 - Build real-world projects
 - Expert mentorship and career guidance
- 

Course Duration & Fee

- **Duration:** 3 Months (12 Weeks)
- **Course Fee:** ₹25,000

COURSE STRUCTURE

Week

Topics Covered

1-2	HTML, CSS, JavaScript
3-4	Node.js & Express.js Introduction
5-6	MongoDB & Database Concepts
7-8	React.js (for MERN) / Angular (for MEAN)
9-10	Integrating Frontend & Backend
11-12	Project Development & Deployment

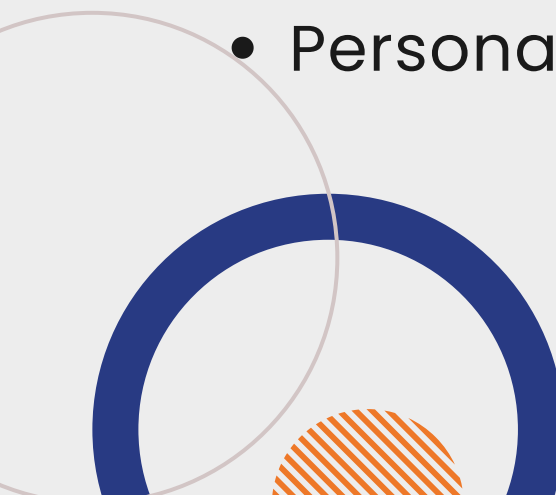

WHO CAN JOIN?

- Final-year students
 - Fresh graduates
 - Career switchers into IT
 - Anyone passionate about coding
- 

ADDITIONAL BENEFITS

- 
- Real-world testing project experience
 - Hands-on automation with Selenium
 - Guidance from industry experts
 - Placement support & certification
 - Personalized mentorship
- 
- 

LEARNING OUTCOMES

By the end of the program, you will:

- Understand core concepts of front-end and back-end development.
 - Build and structure RESTful applications.
 - Design and manage NoSQL databases using MongoDB.
 - Develop interactive and modern front-end interfaces using Angular.
 - Successfully deploy and host a full-stack application.
 - Be confident in applying for web development roles or internships.
